£38,995

The Atlas Concept never ceases to surprise and excite on the first viewing.

Stylish lines and design prompts are apparent throughout the home and lead you through the kitchen and raised dining area toward the living room with sweeping curves dominant in the large comfortable sofa and easy chair. Outlook patio doors will make this a special place as you sit and take in the view throughout the changing seasons.

A stylish kitchen area is coupled with a unique raised dining area, perfect for entertaining friends or more cosy romantic dinners for two.

A family shower room and twin bedroom are passed on the way to the large master bedroom with en-suite bathroom.

A great opportunity to view something different and quite special... don't miss out!
