It's always a pleasure to take a look in the Regal Autograph.

Superb build quality and a great design add a real joy to moving through the spaces.

Entry from the side door brings us into the kitchen dining area and we immediately feel the benefit of the large windows and patio doors looking out from the living area.

The kitchen is spacious and the dining area for 4 people is neatly alongside. The lounge has a large sofa (and sofa bed) and a very comfortable designer tub chair. A family shower room and twin / guest bedroom are passed before arriving at the master bedroom with en-suite shower room. Perfect.
